Due to the business combinations under common control in the second half of 2013, the comparative amounts of the financial statements have been restated.

For the six months ended 30 June 2014, the Group recorded a turnover of RMB 11,390.24 million from its principal business activities, an increase of 20.30% as compared with the same period last year. The Group recorded a net profit attributable to the equity shareholders of the Company of RMB140.10 million, a decrease of 63.57% as compared with the same period last year. Earnings per share were RMB0.10, a decrease of RMB0.18 as compared with the same period last year. Net assets attributable to the equity shareholders of the Company at the end of the period were RMB12,396.50 million, a decrease of RMB130.59 million over the beginning of the period; and net assets per share were RMB9.00, a decrease of RMB0.10 over the beginning of the period. The decrease in profit of Group during the period was mainly attributable to the decrease of gross profit margin and the decrease of fair value of the stock of power companies held by it.

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2014.

In the first half of 2014, the global economic growth rate was slower than expected while downward pressure persisted in China's economy, posting a year-on-year increase of 7.4% in China's GDP growth. Domestic economy remained in a slow yet stable motion. According to the statistics of CEC, the completed investment of hydro power, thermal power and nuclear power continued to record a year-on-year decrease, the completed investment of wind power increased significantly, while the installed capacity and generating capacity of grid solar power generating units recorded a substantial year-on-year increase. There was a year-on-year growth of 5.3% in terms of power consumption across the nation. Newly installed capacity of the power generating units was 36,700MW. Under the circumstances of slowdown of the domestic economy, the slow growth of the power market would be a long term trend.

Facing with a complex and volatile economic environment and the increasingly competitive market, in the first half of the year, the Group further implemented its strategic planning set at the beginning of the year, insisted to grow, achieve its goal and improve its quality amid stability, adopted effective measures to overcome the difficulties. We worked together and devoted ourselves to achieve recovery growth on the Group scale.

During the first half of the year, the value of new contracts secured by the Group amounted to RMB24.566 billion, slightly decreasing from the same period last year, to which export contract contributed RMB9.389 billion, a decrease of 10.20% from the same period last year. Among the contracts in the first half of the year, thermal power accounted for 45.95%; hydropower accounted for 6.64%; power plant engineering services accounted for 27.70%; nuclear power accounted for 8.15%; and the others accounted for 11.56%.

The total capacity of the Group's power equipment produced during the first half of the year was 12,438.1MW, a year-on-year increase of 8.45%, among which 2,755.9MW were generated by 53 water turbine generators, representing a year-on-year decrease of 14.77%; and 9,671MW by 25 steam turbine generators, representing a year-on-year increase of 17.42%. 7 utility boilers with a total capacity of 3,030MW recorded a year-on-year decrease of 25.83%, while 20 steam turbines for power plants with a total capacity of 7,214MW recorded a year-on-year increase of 42.43%.

As at 30 June 2014, the Group recorded a turnover of RMB11,390.24 million from its principal business activities, an increase of 20.30% as compared with the same period last year. In particular, turnover of main thermal power equipment was RMB6,032.90 million, an increase of 6.01% as compared with the same period last year. Turnover of main hydropower equipment was RMB1,648.61 million, an increase of 6.71% as compared with the same period last year. Turnover of engineering services for power stations was RMB1,825.36 million, an increase of 165.33% as compared with the same period last year. Turnover of ancillary equipment for power stations was RMB786.88 million, an increase of 100.66% as compared with the same period last year. Turnover of AC/DC motors and other products and services was RMB1,096.49 million, a decrease of 4.83% as compared with the same period last year.

During the period, the Group recorded an export turnover of RMB2,092.74 million, accounting for 18.37% of the turnover of the principal business activities. The exports were mainly to Ecuador, Indonesia and Turkey.

During the period, the cost of the principal business activities of the Group was RMB9,558.65 million, an increase of 25.00% as compared with the same period last year.

As at 30 June 2014, the Group's gross profit from its principal business activities was RMB1,831.59 million, an increase of 0.58% as compared with the same period last year. The gross profit margin was 16.08%, a decrease of 3.15 percentage points as compared with the same period last year.

Among them, the gross profit from main thermal power equipment was RMB1,043.71 million and the gross profit margin was 17.30%, a decrease of 1.2 percentage points as compared with the same period last year. The gross profit from main hydropower equipment was RMB417.07 million and the gross profit margin was 25.30%, an increase of 2.22 percentage points as compared with the same period last year. The gross profit from engineering services for power stations was RMB133.03 million and the gross profit margin was 7.29%, a decrease of 15.11 percentage points as compared with the same period last year. The gross profit from ancillary equipment for power stations was RMB142.27 million and the gross profit margin was 18.08%, an increase of 0.65 percentage points as compared with the same period last year. The gross profit from AC/DC motors and other products and services was RMB95.51 million and the gross profit margin was 8.71%, a decrease of 7.71 percentage points as compared with the same period last year.

As at 30 June 2014, the Group's operational and administrative expenses amounted to RMB1,525.41 million, an increase of RMB75.05 million or 5.17% as compared with the same period last year.

As at 30 June 2014, the total assets of the Group amounted to RMB61,573.04 million, an increase of RMB1,211.90 million or 2.01% over the beginning of the period, among which the current assets were RMB53,689.94 million, representing 87.20% of the total assets, and the non-current assets were RMB7,883.10 million, representing 12.80% of the total assets.

The total liabilities of the Group amounted to RMB47,407.42 million, an increase of RMB1,340.54 million or 2.91% over the beginning of the period, among which the total current liabilities were RMB36,304.78 million, representing 76.58% of the total liabilities, and the total non-current liabilities were RMB11,102.64 million, representing 23.42% of the total liabilities. As at 30 June 2014, the gearing ratio of the Group was 76.99%.

As at 30 June 2014, the bank deposits and cash of the Group amounted to RMB9,315.64 million, a decrease of RMB 2,549.44 million over the beginning of the period, among which the time deposits amounted to RMB2,047.20 million. During the period, net cash outflow from operating activities of the Group amounted to RMB1,912.37 million, net cash outflow from investing activities amounted to RMB1,273.34 million, and net cash outflow from financing activities amounted to RMB84.02 million.

The Group currently has four funding sources for operation and development, namely shareholder's funds, trade receivables from customers, bank borrowings and corporate bonds. The Group arranges borrowings for each specific project. Except for some special situations, loans will be raised individually by the Group's subsidiaries. However, prior approval from the parent company is required in respect of borrowings raised for capital investments. As at 30 June 2014, the Group's total borrowings amounted to RMB1,656.79 million, all of which amounts were borrowed from various commercial banks and the state's policy banks with interest rates stipulated by the state. Among the borrowings, the amount due within one year was RMB625.80 million, a decrease of RMB112.67 million over the beginning of the period. The amount of the Group's borrowings due after one year was RMB1,030.99 million, an increase of RMB42.79 million over the beginning of the period. The amounts received in advance were RMB15,930.89 million, a decrease of RMB933.16 million over the beginning of the period.

As at 30 June 2014, gearing ratio of the Group (calculated as non-current liabilities over total shareholders' equity) was 0.90:1 as compared to 0.85:1 at the beginning of the period.

According to the provisions of Administrative Measures with regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理辦法》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration for Taxation of the PRC on 14 April 2008 and the Administrative Guidance with Regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理工作指引》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration of Taxation on 8 July 2008, the Company and its major subsidiaries were re-recognized as High and New technology enterprises and were entitled to a 15% preferential income tax rate.

As at 30 June 2014, the employees of the Group totaled at 19,235.

For the second half of the year, the internal and external environment will remain complicated and full of instabilities and uncertainties. China's economy may maintain its stable growth with even more challenges ahead. Results of the Company may be adversely affected due to factors such as decrease of the product price in the recent years. For the macro-economy policy, China procures vigorously carrying out energy reform, which marked the beginning of the reform of China's energy industry. Meanwhile, the acceleration of reform of the big five power groups in China, the continuous optimization of power structure, the transformation of coal and electric industry towards efficient and clean utilization will provide new development opportunity for gas power and nuclear power, assuring the blooming development of clean energy such as hydro power, wind power, solar power and biochemical power. Power equipment manufacturing industry is facing new opportunities and challenges.
